Tuesday, the Eleventh day of February, 1936, being the first day of the Second Meeting of the Nineteenth Legislature of the Province of Ontario for the Despatch of Business pursuant to a Proclamation of The Honourable Herbert Alexander Bruce, Lieutenant-Governor of the Province.

---

3 O'CLOCK P.M.

And the House having met,

The Honourable the Lieutenant-Governor of the Province then entered the House and being seated on the Throne, was pleased to open the Session by the following gracious Speech:—

*Mr. Speaker and Gentlemen of the Legislative Assembly:*

It is my privilege to-day to welcome you to the Second Session of the Nineteenth Legislature of this Province.

As you are aware, my proclamation calling you together on January 21st was revoked, owing to the lamented death the day previously of our gracious and well-beloved Sovereign, King George V. Last May, we celebrated with joy, thanksgiving, and affection, the Twenty-Fifth Anniversary of His Majesty's Accession to the Throne. To-day, we bow our heads in heartfelt sorrow at the passing of one whom the years had taught us to regard more as the kindly father of a large family than the ruler of a great Empire. No words of mine could fittingly express our grief on this occasion, but during the Session you will be given an opportunity more adequately to convey to the Royal Family our profound sorrow in their bereavement, and in the loss we have all sustained. To His Gracious Majesty, King Edward VIII, we tender our loyal devotion and affection, confident that under his reign we shall continue to enjoy the wise and beneficent leadership that characterized his illustrious father.

We desire also to express to our Gracious Sovereign our sympathy in the death of his aunt, the Princess Victoria, and to convey to him our felicitations on the marriage of his brother, the Duke of Gloucester.

While the dark cloud of financial and commercial depression has still been in evidence during the year since last you assembled there have been signs of improvement and in particular we should offer our thanks to Almighty God for the bountiful harvest with which He blessed us during the year which has just closed. Our Province can rejoice with the balance of our Country and with the Mother Country in the fact that we are emerging with renewed confidence from a dark period in the World's history which we have endeavoured to face with fortitude.

During the interval since the last Session, two important functions have taken place in this Chamber. In September you gathered to say farewell to His Excellency, the Earl of Bessborough, on completion of his term of office as Governor-General and also to his gracious Countess, whose residence with us has resulted in very pleasant and affectionate memories. In November the Chamber was the scene of an enthusiastic welcome to Lord and Lady Tweedsmuir on their arrival in Canada to assume the Vice-regal duties. The impression made on the citizens of Ontario on that happy occasion by our new Governor-General augurs well for his success in the high office to which he has been called.

After the close of the Inter-Provincial Conference at Ottawa in December last it became evident that additional revenue must be secured by the Province to meet the greatly increased burden of Unemployment Relief and to balance the Budget. To effect this, it was decided to place on the Statutes an Act providing for a provincial tax on the incomes of individuals, this tax to replace the present municipal levy, and early passage of the measure is necessary for the purpose of facilitating the municipalities in adjusting their annual budgets.

My Ministers have been bending every effort towards a reduction in the cost of government and administration wherever such reduction can be effected without injury to the efficiency of the service. We are happy to note, however, a definite improvement in commerce and industry with a consequent gain in employment, which has already had a considerable effect on the relief rolls. In addition, a substantial increase in the Dominion Government's grant-in-aid will also lessen the load.

My Government deems it advisable at this time to state its policy regarding the funded debt of the Province, which has increased, over a period of years, to such proportions as to become an almost intolerable burden upon the taxpayers.

There is no intention of embarking upon any scheme of forced conversion of the outstanding debentures issued in the name of the Province of Ontario. A rearrangement of the public debt could not be made successfully by one Province alone but would of necessity have to be part of a national refunding scheme.

My Government is determined to honour all outstanding debentures, both as to principal and interest, in the exact terms of the contract and will spare no pains to maintain its credit which is of a very high order, as is evidenced by

the ability to borrow money at the lowest rates of interest in the history of the Province, and further by the fact that nowhere are bonds of the Province of Ontario purchasable except at a handsome premium.

Furthering the interest of Agriculture, the Milk Control Board has materially increased the receipts of farmers who sell whole milk. Marketing promotion in Northern Ontario has brought producers and consumers together to their mutual advantage, while the reopened Demonstration Farm at New Liskeard promises valuable live-stock development in that section of the Province. Plans have been completed for establishing large tubercular-free live-stock areas to improve the health of Ontario cattle.

The Provincial Department of Health has been maintained on a high plane and is doing excellent preventive work in the campaign against disease. Some time ago arrangements were made for radium from the Congo for the treatment of cases of internal cancer. These arrangements have been cancelled and supplies are now obtained from within our own Province at much less cost.

Last Session the Legislature voted \$15,000.00 to the King George V Jubilee Cancer Fund for Canada and it is a matter of pride for us to note that the people of Ontario contributed upwards of \$100,000.00 additional to this most worthy Fund, to assist further research into the cause of Cancer and hasten the day when this dread scourge may be overcome.

The Department of Highways curtailed capital expenditure during the year. Increased traffic and disintegration of the present road surface, however, will entail the early reconstruction of a considerable mileage of our older highways in the more densely populated sections of the Province.

It will be remembered that Legislation was enacted last year for the purpose of terminating certain contracts between the Hydro-Electric Power Commission of Ontario and certain power companies in the Province of Quebec. This was to be brought into force by proclamation of the Lieutenant-Governor in Council. Following prorogation of the Legislature, several conferences were held by my Ministers and the Hydro-Electric Commissioners, with representatives of the power companies affected in the hope of arriving at a reasonable basis for amended contracts. It was impossible, however, to reach a settlement satisfactory to both parties and the Act was finally proclaimed, thus terminating a condition which was seriously affecting the interests of the power users of this Province. The Government will submit certain new proposals to this Legislature for your consideration.

During the fiscal year there were constructed, or under construction, some 542 miles of primary transmission line in the rural power districts of Ontario. This construction was approximately two and one-half times that undertaken in the previous year. Electrical service was given to 3,962 additional consumers. For the coming year, arrangements have been made to construct over 800 miles of rural lines, to serve over 6,000 rural consumers. Rural service charge rates to all rural consumers were revised,—this revision carrying a reduction of 10 per cent. for all hamlet consumers, and a reduction of 20 per cent. for all standard farm consumers.

Several new branches of the Provincial Savings Bank have been opened recently and there has been a very substantial increase in the amount of deposits. The revenues of the Province have been materially increased as a result of increased vigilance in the administration of the Succession Duties Act and the Corporations Tax Act, and it is proposed to introduce some amendments to the taxing statutes, which it is expected will add to their efficiency. The increase in revenue has been accompanied by a reduction in the cost of money borrowed by the Province, with the result that our financial operations during the year have been of a very satisfactory nature.

The Government is pleased to announce that it has been able, at the beginning of the present calendar year, to restore to the members of the Civil Service a portion of the salary reduction which has been in effect for some years. This has been rendered possible by the improvement in the Province's finances and the fact that the duties of four hundred employees who have left the service during the past eighteen months have been assumed by the remainder of the staff.

Ontario's great mining industry continues to make satisfactory progress. In gold mining, nine new treatment plants came into production during the year, bringing the total to forty-five. The tonnage of ore milled, the ounces of gold recovered, the dividends paid, and the number of employees, show an increase over any previous year. Remarkable advance was made during the year in the nickel-copper industry. The tonnage of ore treated, the production of nickel, copper and platinum, the ore reserves, and the labour employed, were the greatest in the history of the Province which now supplies over 80 per cent. of the world's nickel. Appreciating the importance to the mining industry of stabilized taxation, the Government will not make any changes in the mines' profit tax, or any other form of mining taxation. Indications are that the year 1936 will surpass the year 1935 in all branches of the industry.

The Department of Labour has made marked progress in stabilizing wages and hours of industry, to the advantage of both employer and employee.

The freight and passenger business of the Provincially-owned Temiskaming and Northern Ontario Railway continues to improve. The revenues of the road have correspondingly increased, and the result has been an appreciable reduction in the railway's capital indebtedness.

Gratifying progress has been made in the classification, segregation and training of persons committed to the reformative Institutions, and in providing the necessary plant and equipment.

Active encouragement to lumber operators has resulted in the employment of some thousands of men who would otherwise have been on relief, and every effort is being put forward to renew prosperity in the newsprint industry. Legislation will be submitted, safeguarding still further the interests of the public in our forest wealth, and aiming at stability and permanence in the forest products industries.

In conformity with the legislation of last Session changing the fiscal year of the Province, the Public Accounts, which Honourable members have received,

cover the five-month period ending on March 31st last, while the Estimates will be presented for the fiscal year immediately ahead.

In addition to the measures already mentioned, legislation will be submitted to you to provide a more equitable distribution of taxes levied for educational purposes and to improve the organization of the rural schools of the Province; respecting municipal taxation of income of corporations; to amend the Gasoline Tax Act, the Game and Fisheries Act, the Minimum Wage Act, the Apprenticeship Act, and the Municipal Act; to regulate fumigation; and for various other purposes.

In conclusion, I commend the work of this Assembly to your earnest consideration and trust that under the guidance of Divine Providence your labours will further advance the public welfare.

Mr. Speaker then reported,

On motion of Mr. Nixon (Brant), seconded by Mr. Henry,

*Resolved*, That an humble address be presented to His Most Gracious Majesty, the King, expressing the sincere sympathy of this House on the death of His Late Gracious Majesty, King George the Fifth, and also conveying to His Majesty the congratulations of the House on his accession to the Throne of His Ancestors and to those ends, that the following Address be adopted:—

## TO THE KING'S MOST EXCELLENT MAJESTY.

MOST GRACIOUS SOVEREIGN:—

We, Your Majesty's most loyal and devoted subjects, the Legislative Assembly of the Province of Ontario, in Parliament assembled, beg leave to approach Your Majesty for the purpose of expressing the deep sorrow felt by the Members of this House and by the people of the Province of Ontario at the bereavement sustained by You and by them in the death of His Late Majesty, King George the Fifth of blessed memory, and to express to You, to the Queen Mother and to the other members of the Royal Family, our most sincere condolences on the great loss which has been sustained not only by You, but by Your subjects throughout the British Empire.

Through the death of our beloved Sovereign we are conscious, not only of the realization of the loss of a good King, but also of a feeling of personal bereavement which has probably never been equalled on such an occasion. Your Gracious Father's kindness of heart, His sincere humanity, His personal interest in the well-being of His subjects in all parts of the Empire created in their hearts a feeling of love and devotion to His Person transcending even their loyalty to the Crown. His memory will ever be kept green in the hearts of His people.

His Late Majesty's reign extended over one of the most troubled periods in the history of the World, a period during which the British Empire was called upon to play a difficult and most important part in World affairs and it is our pride to realize that the success of the Empire's efforts was, in no small part, due to the wise and sympathetic leadership of Him whose loss we mourn. His duties of Kingship imposed on Him a most onerous burden of responsibilities which He faced with unflinching devotion to duty and which in the end took their toll of His health.

While we realize that it is yet difficult for Your Majesty to turn Your thoughts from Your great sorrow, we trust you will bear with us as we convey to You the joy which is felt in this Province upon Your accession to the Throne. Your many visits to us in past years have endeared You to us in a very personal sense. Permit us to assure You of the devotion and loyalty of the people of Ontario to Your Person and to the Crown, and to express the fervent hope that Your Majesty's reign will continue for many peaceful and prosperous years.

We feel that in You the Empire has a worthy successor to the beloved King, Your Gracious Father, and that You may be trusted to bend your efforts to a continuance of the wise policies which marked His Rule.

---

On motion of Mr. Nixon (Brant), seconded by Mr. Roebuck,

Before the Orders of the Day were called, Mr. Heighington asked Mr. Speaker to reconsider his decision of Tuesday the Eleventh instant when he allowed the First Reading of Bill (No. 51), "An Act to authorize the Levying of a Tax upon certain Incomes" without the customary two days' notice and without having first had submitted to the House a resolution approving the subject matter of the Bill.

Mr. Speaker ruled that he could not revoke his previous decision on which the House had taken action, and advised the House that his decision in question had been given after serious consideration and had been based on reasons which he would place before the House in writing at a later date.

---

On motion of Mr. Nixon, seconded by Mr. Roebuck,

*Ordered*, That this House do forthwith resolve itself into a Committee to consider a certain proposed Resolution respecting the authorization of the levying of a tax upon certain incomes.

Mr. Nixon acquainted the House that His Honour the Lieutenant-Governor having been informed of the subject matter of the proposed Resolution, recommends it to the consideration of the House.

The House then resolved itself into the Committee.

*(In the Committee)*

*Resolved*, There shall be assessed, levied and paid upon the income during the preceding year of every person (a) residing or ordinarily resident in Ontario during such year; or (b) who sojourns in Ontario for a period or periods amounting to one hundred and eighty-three days during such year; or (c) who is employed in Ontario during such year; or (d) who not being resident in Ontario, is carrying on business in Ontario during such year; or (e) who, not being resident in Ontario derives income for services rendered in Ontario during such year, otherwise than in the course of regular or continuous employment, for any person resident or carrying on business in Ontario; (f) who, before his appointment was a resident of Ontario and is now or hereafter becomes a Minister, High Commissioner, officer, servant or employee of the Government of Canada, or an agent general for any of the provinces of Canada, or any officer, servant or employee thereof, resident outside of Canada, except upon income arising from his official position, a tax at the rates set forth in the First Schedule of an Act (No. 51) intituled, "An Act to authorize the Levying of a Tax upon certain Incomes," upon the amount of income in excess of the exemptions provided in this Act.

Mr. Speaker resumed the Chair, and Mr. Newman reported, That the Committee had come to a certain Resolution.

Mr. Nixon moved that the Report of the Committee be adopted.

Mr. Henry moved in amendment, seconded by Mr. Price,

That this resolution be not now concurred in, but be referred back to Committee of the Whole for the Government to lay before the Committee such data and information as will provide reasons why the Government finds it necessary to increase taxation, instead of decreasing it as they had promised.

And the Amendment having been put it was lost on the following Division:—

And in the course of the debate Mr. Baird (High Park) made the statement that certain lawyer members of the Assembly had withdrawn from the law firms they were formerly connected with in order that their former partners could secure Government business. He instanced particularly Windsor and Toronto as the scenes of such action and stated that the former partner of the Attorney-General had been one of the lawyers to benefit.

The Honourable the Attorney-General took exception to the statement made by the member for High Park and declared that, so far as he knew, his former partner had not received one dollar from the Government.

Mr. Baird withdrew his statement and in the course of discussion charged that the Minister of Welfare was aware that his former partners had secured Government business.

PRAYERS.

3 O'CLOCK P.M.

The following Petition was read and received:—

Of the Mercantile Fire Insurance Company, praying than an Act may pass enlarging the scope of operations of the Company.

---

Before the Orders of the Day, Mr. Speaker addressed the House as follows:—

“On Wednesday last, the 12th Instant, the Member for the Riding of St. David requested me to reconsider my decision of Tuesday, the 11th Instant, when I allowed the first reading of Bill (No. 51), “An Act to Authorize the Levying of a Tax upon certain Incomes,” without the customary two days’ notice and without having first had submitted to the House a resolution approving the subject matter of the Bill. At that time I stated that I would present to the House in writing at an early date the reasons which influenced me in making the decision referred to and this I am now prepared to do.

“Dealing first with the introduction of the Bill without the customary two days’ notice, may I point out to the House that while Rule 36 requires that two days’ notice shall be given of intention to introduce a Bill, Rule No. 54 provides that

‘On urgent or extraordinary occasions a Bill may be read twice or thrice, or advanced two or more stages in one day.’

"It has also been the acknowledged right of the Government in British Parliaments for a length of time which greatly antecedes the creation of this Legislature, to introduce one Bill on the opening day of the Session and this practice has been followed in this Legislature during its entire life. Naturally a Bill introduced on the first day of the Session cannot be the subject of two days' notice.

"While it is customary on opening day to introduce a Bill which is merely a gesture and which does not go beyond its first reading there is nothing that I know of to prevent the Government introducing any Bill on that occasion. In fact this has happened in the past on several occasions and on January 25th, 1910, at the opening of the Session the usual *pro forma* Bill was omitted and thirty-three Government Bills were introduced without previous notice.

"I was therefore prepared to Rule that the Government was in good order in introducing any one Bill on the opening day of the Session without previous notice.

"Regarding the second point raised, namely, that the resolution carrying the principle of the Bill should have been presented for the consideration of the House before the Bill was introduced, I have given this objection careful study and am of the opinion that it is not well founded. I base my opinion on several factors.

'Sections 54 and 90 of the British North America Act, 1867, provide that "the House shall not adopt or pass any Vote, Resolution, Address or Bill for the appropriation of any part of the Public Revenue, or any Tax or Impost that has not been first recommended by a message of the Lieutenant-Governor in the Session in which such Vote, Resolution, Address or Bill is proposed'."

"I would call your attention to the fact that the section quoted provides that the House shall not *adopt* or *pass* any Bill without the recommendation of the Lieutenant-Governor. It does not say the House must not *introduce* such a measure without the recommendation.

"The principle of a Bill is *adopted* on its second reading and it is not passed until it has received third reading.

"I am therefore of the opinion that it is quite in order to introduce and give first reading to a taxing or appropriation Bill previous to consideration of the supporting resolution and previous to the recommendation of the Honourable the Lieutenant-Governor being conveyed to the House.

"In this connection I may say that the recommendation of the Lieutenant-Governor of the principle contained in Bill No. 51 was in the hands of the Clerk of the House before the motion for the introduction of the Bill was made.

"I am aware of the fact that Section 66 of the Legislative Assembly Act adds the word 'originate' to the Section of the British North America Act I have quoted but I would point out that proceedings in this House are governed

in the first instance by our Rules of Procedure as printed in our book of Rules and secondly (Rule 1, clause B. 1) by the Usages and Precedents of this Legislature.

"In our Book of Rules as originally adopted and as again approved as revised on March 26th, 1929, Rule 106 adopts the Section of the British North America Act quoted above as the procedure on Money Bills of all kinds and I am therefore of the opinion that the Section in question is the one which governs us in such cases.

"It is quite apparent that my ruling on this point is in accord with the procedure followed in this House practically throughout its existence. A search of the records of the House for a period of thirty years preceding the present shows that out of 254 Money Bills introduced during that period only 12 were preceded by the supporting resolution.

"I would point out also that it is, and has been for many years, the practice in this House, on passing a money resolution, to refer it by number to the Bill which carries its principle and this could not be done unless the Bill had been first introduced and given its number.

"Upon learning that the Government intended introducing the Bill in question on the opening day of the Session, I took the matter under advisement, consulted proper authorities and precedents and as a result am of the opinion that the introduction of the Bill on opening day was quite in order and that the method of dealing with Money Bills which has been practised in this House, as outlined above, for many years is the proper procedure on such Bills."

The Order of the Day for resuming the Adjourned Debate on the Motion for the Second Reading of Bill (No. 51), An Act to authorize the Levying of a Tax upon certain Incomes, having been read,

The Debate continued and after some time Mr. Ellis moved, seconded by Mr. Heighington,

That this Bill be not now given its second reading but stand for further discussion until a future day when the Provincial Treasurer can place before this House such information and data as will accurately define the present financial position of the Province necessitating new taxation.

Mr. Speaker informed the House that in his opinion the amendment submitted was out of order and that, it being six o'clock, he would give the matter consideration during the dinner recess and would give his ruling when the House resumed at eight o'clock.

When the House resumed at eight o'clock, Mr. Speaker delivered his ruling as follows:—

"During the interval since six o'clock, I have considered the amendment to the motion for the second reading of the Bill No. 51 now before the House which was submitted by the Member from Ottawa South.

"I may say to the House that the rulings of the Speakers of the Legislature from Confederation to the present time have been compiled and indexed and I have been giving them some study. When the amendment was submitted to me, I had in mind several rulings dealing adversely with suggested amendments which I felt were comparable to the one under consideration, and in fact there are a number of rulings which so deal with such amendments in the manner which I have suggested.

"After giving the matter careful consideration, however, and with a desire to avoid any appearance of arbitrary interference with the actions of the Members, I am of the opinion that a motion to postpone the second reading of a Bill until a future date is in order provided that the amending motion is definite in the term of the postponement asked for.

"May's Parliamentary Practice (13th Edition, Page 390) says: 'The ordinary practice is to move an amendment to the question by leaving out the word 'now' and adding the words 'three months' or 'six months' or any other term beyond the probable duration of the Session. . . . The same form of amendment is adopted where it is desired to postpone the second reading for any shorter time.'

"On Page 391, May says: 'Nor may such an amendment attach conditions to the second reading of the Bill'.

"I think this clearly indicates that an amendment seeking to defer the second reading of the Bill must set a specific period of postponement, such as 'This day three weeks' or similar definite period.

"I therefore am of the opinion that the amendment presented by the Member for Ottawa South is out of order as being too indefinite, in not setting a definite date to which it is desired to postpone the second reading, and also because it proposes to attach conditions to the second reading of the Bill in question."

---

Mr. Heighington then moved, seconded by Mr. Ellis,

That this House do now adjourn as the Honourable the Speaker doth deny the privileges of the Assembly.

The Motion having been put was declared in the negative.

---

Mr. Ellis moved, seconded by Mr. Heighington,

That this Bill be not now given its second reading but be postponed for a period of three months unless in the meantime the Provincial Treasurer places before this House such information and data as will accurately define the present financial position of the Province necessitating such new taxation.

 17.50 per horsepower per annum . . . . . 10,000 horsepower to 20,000 horsepower  
 22.50 per horsepower per annum . . . . . For all power over 20,000 horsepower—  
 Plus  $4\frac{1}{4}$  mills per K.W.H. for all consumption in excess of 85% load factor.

One firm power contract has a straight line rate of  $4\frac{1}{4}$  mills per K.W.H. for all consumption—Minimum \$18.00 per h.p. per annum. In the Kirkland Lake District where power is sold at the same voltage as the Northern Canada Power Corporation, rates are \$2.50 and \$1.50 per h.p. per annum higher than the above schedule. The one interruptible power contract carries the following rates:

2 mills per K.W.H. with a minimum of \$10.00 per h.p. per annum.

One at-will power contract carries a rate of .78 mills per K.W.H., and the other, which is a temporary contract from day to day, carries a rate of .65 mills per K.W.H.

The contracts covering the sale of firm power from the Abitibi Canyon Development are practically all standard as to terms and conditions.

Duration of the contracts varies from life of mine to two, five and ten year periods.

Customer is required to post a Bond with the Commission equivalent to cost of transmission line required to give service. This Bond is returnable on the basis of 10% per annum, or 25% of annual power bill. Customer is also required to post additional bond equivalent to three months' power bill. This bond is held by the Commission as long as contract remains in force.

Power is supplied at transmission voltage and customer required to supply transformation to distribution voltage.

Power is supplied on basis of ten-minute average peak at 85% power factor.

Minimum amount of power to be paid for is 75% of previous maximum demand. Customer allowed to drop back to 50% of highest peak established during the year at end of each contract year.

Customer allowed a reduced minimum, if production interrupted due to a fault, or when searching for new ore bodies.

If customer desires to increase demand beyond contract amount to the maximum set out in the contract, the Commission must be given reasonable time to provide new works if existing works are insufficient to provide for new demands.

The one interruptible power contract carries a special "Interruption" clause, providing that interruptions shall not exceed one per day, with each interruption not longer than five hours, and the total interruptions in any one month not to exceed 10% of the total hours in the month.

Other terms and conditions outside of rate are standard.

The two at-will power agreements provide for curtailment of power supply, either in part or for total amount, by the Commission, at the will of the Commission at any time. Other conditions outside of the rate are standard.

Contracts with individual consumers in the three local distributing systems carry rates as follows:—

Domestic Service—Service Charge—33c and 66c.

6c per kilowatt-hour for the first 50 kw.hrs-

2c per kilowatt-hour for the balance.

Prompt payment discount—10%.

Minimum monthly bills range from \$2.00 to \$2.50 per month.

Commercial Service—Service Charge—5c per 100 watts per month.

6c per kilowatt-hour for the first 100 hours' use per month of connected load or maximum demand.

2c per kilowatt-hour for all additional.

Prompt payment discount—10%.

Minimum monthly bills range from \$3.00 to \$3.50 per month.

Power Service—Kilowatt-hour rates and service charge based on \$40.00 and \$45.00 per horsepower per annum.

Mr. Duckworth asked the following Question (No. 92):—

1. What were the total gallonage sales in each municipality in Ontario during the year 1935 for: (a) Beer; (b) Wine.

The Honourable the Prime Minister and Provincial Treasurer replied as follows:

Information as to the gallonage sales of beer and wine in each municipality in Ontario during 1935 is not available. The total sales of beer and wine from Liquor Control Board stores, breweries, brewers' warehouses, wineries and winery branch retail shops during 1935 were as follows: Beer—21,382,361 gallons; Wine—1,328,400 gallons.

---

Mr. Murphy asked the following Question (No. 93):—

1. How many licenses have been granted by the Liquor Control Board since July 15, 1934, which allows the establishment of stores for the purpose of selling wines in Ontario. 2. Where are these stores located, and by whom are they operated. 3. To whom were the licenses granted in each case.

The Honourable the Prime Minister replied as follows:—

1. On July 15th, 1934, there were 49 native wine licenses in effect. Retail sale was permitted from either the winery premises or a branch retail shop. On that date, the number of such branch retail shops was 17. Since that date, 15 of the above-mentioned licensees established branch retail shops and ceased retail sale from the wineries premises. During the same period, the Regulations were amended and the Board empowered to permit the holder of a native wine license to purchase any other native wine license, and that in event of such license so purchased being surrendered to the Board, the privilege of establishing a branch retail shop in a location satisfactory to the Board could be sanctioned. The surrender of the license required the closing of the winery. The number of branch retail shops which might be conducted by any native wine license was restricted to six. Under this plan 9 native wine licenses have been surrendered and the establishment of a further 4 branch retail shops sanctioned. The number of native wine licenses at present is forty.

PRAYERS.

3 O'CLOCK P.M.

On the motion of Mr. Nixon (Brant), seconded by Mr. Croll,

*Ordered*, That the name of Mr. Schwenger be added to the Committee on Public Accounts.

---

Mr. Hepburn moved, seconded by Mr. Nixon (Brant),

That this House heard with regret the statement made by the Honourable the Member for Parkdale during the sitting of the House yesterday, which reflected on the honour of the Honourable the Member for Sault Ste. Marie, to the following effect:—

“I would like to tell the House something of the activities of the Member from the Sault, when he was a resident of Mimico and associated with the late Dr. Godfrey. The Member at that time for political favours was willing and anxious to kiss any part of the body of Dr. Godfrey, which he might expose.”

And this House, having in mind the seriousness of the reflection contained in the statement referred to and being sensible of the necessity of maintaining the dignity of debates and proceedings in this Honourable Body, hereby passes and directs to be embodied in the Records of the House a vote of censure on

the Member for Parkdale for his action in thus attacking the honour and integrity of a fellow member in direct contravention to Rule No. 15 of this House.

Mr. Ellis objected that the motion was out of order as it lacked the two days' notice required by Rule No. 36.

Mr. Speaker ruled that the Motion of the Prime Minister was made as a matter of privilege arising out of a reflection on the Honour of a Member of the House and under Rule 47 of the House was quite in order.

Mr. Ellis appealed against Mr. Speaker's ruling which was sustained on the following Division:—

Mr. Speaker informed the House that the Clerk had received from the Commissioners of Estate Bills their report in the following case:—

Bill (No. 9), "An Act respecting a Trust Settlement of the late Peter Birtwistle and the Corporation of the Borough of Colne."

The report was then read by the Clerk at the Table as follows:—

*To the Honourable, the Legislative Assembly of the Province of Ontario  
in Parliament Assembled*

In the matter of an Act respecting a Trust Settlement of the late Peter Birtwistle and the Corporation of the Borough of Colne, England (Bill No. 9).

We, the undersigned, two of the Commissioners of Estates Bills, having perused the above-mentioned Bill therefor, do report as follows:—

By the Settlement of the 27th May, 1918, the trust fund in question is held for the purpose of accumulation for a period of twenty-one years from the death of Peter Birtwistle which occurred on the 19th day of April, 1927. This Fund has now accumulated and amounts, on the 1st day of January, 1936, to \$545,289. Neither the petition nor the agreement referred to in the Bill sets forth the trust upon which this large sum is held, but we find the facts set forth in the report of the case in *Re Birtwistle* (1935), O.R. 433, where the approval of the Court of an agreement between the Trustees and the Mayor, Aldermen, and Burgesses of the Borough of Colne, similar to that in the schedule to the Act was sought and refused.

From this report it appears that the trust agreement provides for the holding of this fund by the Trustees for the period of accumulation, to wit, until April, 1948, and the fund is then directed to be paid over to the Municipal Council of the Town of Colne as Trustees, and is then to be expended by the

Municipal Council of Colne as directed by the settlor "for the benefit of the aged and deserving poor of the said Town of Colne, in such manner and without restriction of any kind, as shall be deemed prudent to the said Council," so that the Municipal Council of Colne in the year 1948, are to distribute this fund for the benefit of the aged and deserving poor of the said Town of Colne at that date.

What is now sought is to modify the terms of the settlement made by the settlor in May, 1918, so as to permit this money to be paid over by instalments to the present Municipal Council of the Town of Colne for investment in some building scheme for the benefit of the present poor of that Town, and to permit further payments to be from time to time made prior to the date fixed by the settlor himself.

His Lordship Chief Justice Rose in the judgment referred to determined that the approval of the Court could not be given to this violation of the terms of the trust upon which this fund is held. The present Council of the Town of Colne has no right whatever to this fund. It is to be held by the present existing Trustees and remain invested within Ontario until A.D. 1948, and is only to be paid over at the expiry of the period of accumulation to the then Council of Colne. Before that date arrives, the Town of Colne has no right, beneficially or otherwise, to the fund in question. At that date the Trustee is to be changed and the Municipal Corporation is to take over the fund and then distribute it among those who are within the ambit of the testator's benefaction.

We refer you to the report of this decision for the reasons which induced the learned Chief Justice to refuse to sanction the agreement referred to.

For the reason that this Bill appears to interfere with the rights of the persons beneficially entitled in a manner which is quite unwarrantable, and to interfere with the rights of the settlor without any excuse or justification, in our opinion it is not reasonable that the Bill should pass into law, and we so report.

Osgoode Hall, 24th day of March, 1936.

W. E. MIDDLETON,  
J.A.

C. A. MASTEN,

*Commissioners of Estates Bills.*

*Ordered*, That Bill (No. 9), "An Act respecting a Trust Settlement of the late Peter Birtwistle and the Corporation of the Borough of Colne" be not further proceeded with.

11 O'CLOCK A.M.

Mr. Nixon (Temiskaming) presented the second and final report of the Standing Committee on Agriculture and Colonization, which was read as follows and adopted:—

The organization meeting was held on March 13, 1936, at which the following Subcommittees and their Chairmen were appointed:—

Fruit and Vegetables (Mr. Bragg); Dairying (Mr. Dewan); Livestock and Crops (Mr. Gardhouse); and Colonization (Mr. Freeborn).

Hon. Mr. Marshall, Minister of Agriculture, reviewed the surplus cream and the butter situation and pointed to the increased sweet cream market available in United States cities. The Minister also told of the possibility of lowered freight rates on car load lots of cattle from Western Canada, with stop-over privileges for feeding in Northern Ontario as a means to relieving the surplus feed problem there.

At the Second Meeting, held March 17, under the auspices of the Fruit and Vegetables Subcommittee with Mr. Bragg presiding, Mr. Paul Fisher, of Burlington, addressed the members. He discussed the problems affecting the industry and reviewed his report to the Department on the advisability of establishing a terminal warehouse in Toronto.

On March 25, the Committee and others proceeded to Ontario Agricultural College, Guelph, as guests of Hon. Mr. Marshall, where members were privileged to view some of the valuable live stock. Mr. Marshall, Dr. Christie and others discussed the various types of animals displayed for the benefit of the guests.

The Third Meeting, held on April 3, heard a timely address by Mr. Peter Stewart, of the Canada Malting Company on the subject of barley and malt. The speaker urged farmers to take advantage of the ready market for good quality barley and encouraged growers to organize in local barley-growing groups for the purpose of producing a better class of grain.

The Committee discussed proposed extensions to The Dog Tax and Sheep Protection Act, it being the consensus of opinion that the Act should include cattle as well as sheep but that provisions should not include fowl and other animals.

The Fourth Meeting convened on April 7, under the chairmanship of Mr. Dewan, when Dairying problems were discussed. Mr. George H. Barr, Director of Dairying for Ontario, reviewed the industry, with special reference to cream and butter grading. Mr. Barr compared the favourable results obtained through cheese grading and emphasized the need for similar action in relation to the grading of butter. The speaker told of the good grading obtained by other provinces and spoke of opportunities for increased home consumption and greater export trade for Ontario, which he felt must result from improved grading facilities.

The Committee resolved that it was desirable to have the same Chairman appointed in the Agricultural Committee next session. It was felt a continuity of thought on the various problems would thus result. Mr. Freeborn, Chairman of the Subcommittee on Colonization, recommended that a study of the question be made during recess and a report submitted next year.

---

Mr. Miller presented the report of the Standing Committee on Fish and Game, which was read as follows and adopted:—

Regarding Bill (No. 91), An Act to amend The Game and Fisheries Act, your Committee begs leave to report that this Bill has been withdrawn by the sponsor thereof and that the same therefore be not reported.

Your Committee begs leave to present to the House the Minutes of their meetings during the current Session and recommends that they be printed as an Appendix to the Journals of the House.

---

To this Act the Royal Assent was announced by the Clerk of the Legislative Assembly in the following words:—

“The Honourable the Lieutenant-Governor doth thank His Majesty’s dutiful and loyal Subjects, accept their benevolence and assent to this Bill in His Majesty’s name.”

---

The Honourable the Lieutenant-Governor was then pleased to deliver the following speech:—

*Mr. Speaker and Gentlemen of the Legislative Assembly:—*

As you have completed the work of the Second Session of the Nineteenth Legislature of this Province, I am enabled to relieve you of further attendance on your legislative duties.

At the opening of the Session, I stated that a definite improvement in commerce and industry had been evident during the past year, which had resulted in a reduction in the number of those drawing relief.

I am thankful to note that the numbers on the unemployment relief rolls are continuing to decrease, partly because of the general economic improvement, and partly because wholehearted co-operation between my Government and

the municipalities has resulted in the removal from the lists of a large number of persons who have no right to direct relief. At the same time, the reduction in the Dominion Government's grant-in-aid threatens to impose upon the Province and municipalities a serious hardship. My Ministers are making every effort to induce the Dominion to restore the former rate of assistance, and will not falter in these efforts so long as the present situation continues.

Vigorous efforts are being made by the Department of Labour to restore the unemployed to their proper places in industry, and several of your enactments are directed toward that end. As a result of amendments in The Apprenticeship Act, it is hoped that many youths may find entry into useful trades. At the same time, we have provided greater protection for many workers through amendments to The Factory, Shop and Office Building Act, The Minimum Wage Act, The Industrial Standards Act, and The Fair Wage Act. It has been deemed wise to extend for another year the provisions of The Mortgagors and Purchasers Relief Act.

Validation of three contracts for the purchase of power by the Hydro-Electric Power Commission will effect a saving, as compared with former commitments which were declared illegal last year, estimated at \$6,280,689 during the present year, and \$8,214,500 in 1937. If the increase in demand for power by Hydro customers continues in 1938 and 1939, the estimated saving will be over \$7,000,000 in each of these years, or a total saving for the four years of nearly \$30,000,000. Extension of the benefits of Hydro service in the rural sections of Ontario will be one result of this saving. In 1935, some 542 miles of primary transmission lines were constructed in rural power districts, while the programme this year calls for the construction of 800 miles of rural transmission lines.

Several changes have been made with respect to the Administration of Justice. Re-enactment of The Magistrates Act will provide a more even distribution of cost among the municipalities, while The Judicature Act is amended to permit of the appointment of two more Judges to the High Court Division of the Supreme Court. Provision has also been made for an additional County Judge in the County of York, and for the appointment of a Chief Coroner in each County and Provisional District to supervise the important work performed by coroners. Curtailment of frequent and unnecessary inspections of public buildings by Grand Juries is made possible by an Amendment to The Jurors Act, which will result in savings to the municipalities.

The arbitrary powers exercised by the Optometry Board are abolished in view of the abuse of the privileges the Optometry Board had been granted, and the Board is now vested with such powers only as are reasonably necessary for properly carrying out the purposes of the Act in the public interests.

Provision has been made for a more just division between Public and Separate Schools of taxes paid by Corporations, in the hope and expectation that it may provide a fair and equitable settlement of a problem which for many years has confronted the people of this Province.

Production in the mines of Ontario is going steadily forward, adding to the wealth of our people, and providing increasing opportunity for employment.

Undoubtedly the present year will witness the greatest production of mineral wealth in the history of the Province.

The Department of Agriculture is taking active steps to improve the breeding of livestock, and is co-operating more closely with the Dominion authorities in furthering the interests of agriculture within the Province, and the extension of its markets abroad. The Dominion Dairy Act is made effective in Ontario, providing for the grading of butter, and the limit of ten years for repayment of loans under The Co-operative Marketing Loan Act, is extended to twenty years. Other legislation of benefit to farmers is The Amended Dog Tax and Sheep Protection Act, providing municipal compensation for other cattle killed or injured by dogs. This provision formerly applied only to sheep.

The Department of Health is carrying on active work in the prevention of disease, and several measures affecting the health of our citizens have been passed. Provision has been made for increased provincial and municipal aid to convalescent hospitals and sanatoria for consumptives, and legislation has also been enacted for controlling fumigation.

The Forest Resources Regulation Act is an advance step in the direction of re-allocating large timber areas, restoring to the Crown a needed measure of control over natural resources and of providing a reasonable and, it is hoped, an effective means of stabilizing the forest products' industry. This should result in re-establishing public confidence in the highly important newsprint industry, which is so directly dependent upon the timber resources of the Province.

Need for additional revenue having become imperative owing to the continued heavy drain on the Treasury to meet the necessity of our unemployed citizens, an Act has been passed for levying a provincial tax on the income of individuals. My Ministers are to be commended for their determination, by this means, to balance the budget. Increasing revenues are an indication not only of improving business conditions, but of more efficiency in collection. The people of Ontario may look forward confidently to a reduction in the gross debt of the Province.

The continued improvement in the revenues of the Temiskaming and Northern Ontario Railway is a matter for considerable satisfaction. The Railway has been given power, subject to approval by the Lieutenant-Governor in Council, to engage in truck, bus, and airplane transport, and thus keep abreast of modern conditions.

In closing, I wish to thank you for the manner in which you have applied yourselves to your legislative duties, and for the financial provision you have made for carrying on the affairs of the Province. I trust that under the blessings of Divine Providence, the legislation you have enacted will further promote harmony, well-being, and happiness among all our citizens.

---

The Provincial Secretary then said:—

*Mr. Speaker and Gentlemen of the Legislative Assembly:—*

It is the will and pleasure of The Honourable the Lieutenant-Governor, that this Legislative Assembly be prorogued and this Legislative Assembly is accordingly prorogued.
